### *High Resolution Print Files*

My work will only be perceived as good as the prints of my pictures; therefore, the prints that you purchase from me will be retouched and printed by only the best quality photo labs available to me as a professional photographer. Most likely, you as the client will not have access to the same level of quality printing. I do believe that the photos from your portrait(s) are yours, and you should have access to them, which is why I offer select low-resolution files with the package. Printable high-resolution files are available and may be purchased for the cost of \$300, and in this case, selected files will be retouched and made available within six weeks of your sitting. Images remain the copyright and property of Brett Turner Photography. If you must, though, I ask you please find a quality lab (not Wal-mart or Wolf camera) to print your pictures (I can recommend labs). Treat them as I would treat them, as my children, my reputation, and my legacy.

### *Albums*

Due to the personal nature of album design, an album must be custom designed for each unique client. This service is offered, and prices vary from \$300 to \$2000.

### *Framing*

Framing service is provided by *StyleCrest Framing*. Individual frames are custom designed and handmade using the best archival materials currently available. These prices are negotiated per piece and are subject to change.

### *Payment*

- One-half of your package cost is required to secure the date of your sitting.
- The balance of your package cost is to be paid before or at your sitting.
- We accept checks, cash, Paypal, and money orders.
